Sub. : Appreciation letter for the Friction Welding Services provided
for the development and serial production of Bi-metallic
(Al 6061- SS304) Transition Joints.

Dear Sir,

We wish to inform you that Mr. Yatin Tambe of FWT (Friction Welding Technologies Pvt. Ltd.), Pune had provided technical expertise and we have successfully developed Friction Welding process for welding of Al6061-SS304 Bi-metallic Transition Joints.

Mr. Yatin Tambe of FWT, Pune is working in friction welding field and has a thorough knowledge of the process. He has customized this solid state technique for practical application in several automobile and related process industries.

Friction Welding being a specialized field there are not many such services commercially available. We thank Mr. Yatin Tambe and his FWT team for their valuable contribution towards the development of this facility for several Industries and research units.

We are happy to know that Mr. Yatin Tambe is applying for the prestigious G. S. Parkhe Merit Award 2010.

We wish him good luck.

Thanking you,

18.03.10
